How You Can Share and Make the World a Better Place

- License your content (web site, lesson plans, photos, PPTs, etc.) with a CC license. (We recommend CC BY for education.)
- Post photos to Flickr or other photo sharing sites with an open license. (You can change the default license setting in your account settings.)
- If you see a mistake or opportunity for clarification in Wikipedia or another wiki, change it!
- Contribute to Wikibooks, Curriki, WikiEducator, or other OER sites.
- Teach your students about copyright and open content.
- Tell your colleagues and friends about open licenses and OER.
